

# SHEET PILING WORKS

Since the very beginning, sheet piling works are a core activity of Soiltech. Following the take-over by Jan De Nul Group, Soiltech succeeded in strengthening its market position. Today, Soiltech is market leader for sheet piling works in Belgium.

Sheet pile walls (vibration-free), combi-walls, Berlin walls, both land- and water-based: Soiltech has all the necessary expertise for the execution of these activities. Soiltech has already successfully executed several complex projects in the Netherlands, Belgium, France and Poland.

Soiltech also lets over 10,000 tonnes of sheet piles for temporary sheet-pile walls and building pit revetments as well as jack posts or purlins.
